AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Complete Listing of Claims:

1. – 13. (Canceled)

14. (Currently amended) A method for a host to provide known data about an entity to a third party pursuant to said entity's authorization, comprising the steps of:

said entity preregistering private information with said host;

providing a means for said entity to identify to said third party the host to contact for access to said private information and for said third party to recognize said entity as a member of a service of said host;

responsive to said recognition, said host receiving a request from said third party for specific information about said entity;

said host surveying at least one data repository for said specific information about said entity;

said host displaying said specific information about said entity to said entity and requesting authorization from said entity to provide at least a portion of said specific information to said third party; and

responsive to an opting in of said entity, said host providing at least a portion of said specific information to said third party.

15. (Original) The method of claim 14 wherein said host, said entity and said third party are interconnected via an integrated network of computers.

16. (Original) The method of claim 15 wherein said third party is provided with an indication that said entity is a member of said service of said host via digitally transmitted data.
